Liron Himbert

Full-Stack Developer
058-686-0673 · lironbenharrouch@gmail.com · LinkedIn · GitHub · Portfolio

Full-stack Developer with 3+ years of experience building production systems, with a growing focus on AI integration and agent-based architectures. I work fast, dig deep, and see things through. Looking for a full stack role where shipping smart, AI-driven products is the norm.

Skills

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML/CSS, Responsive Design
Backend: Node.js, NestJS, Python, Django, Express, FastAPI, REST APIs, Microservices
Data/Infra: PostgreSQL, MySQL, MongoDB, Redis, Docker, AWS, Kafka, Firebase
GenAI Integration: LangGraph, LangChain, MCP, Multi-Agent Workflows (A2A), RAG (Redis/FAISS), OpenAI API
Tooling & DevOps: Git, CI/CD, Docker, Prisma, ORM, Containerization, Jira, Cursor, Claude Code

Experience

Freelance Full-Stack Developer - *Independent | Remote* *Jan 2025 – Present*
Eliana Beauty - Booking & CRM Platform (mobile-first, client + admin)
Built a complete booking and CRM platform for beauty salons with two interfaces in one:

- Client side: appointment booking with real-time availability, service browsing by category, staff selection, appointment history with live status tracking, in-app chat, and seamless English/Hebrew RTL switching
- Admin side: financial dashboard with revenue tracking and analytics, staff management with sick leave/vacation blocking and automatic conflict handling, service customization, advanced search filters, and automated database backup
- Built an intelligent availability engine handling working hours, time-off, service durations, and real-time conflict detection with color-coded time slots
- Designed for non-technical users, clean, responsive UI across all screen sizes

Full-Stack Engineer & IT Team Lead - *Callisto | Ashkelon* *Aug 2024 – Present*

- Led a 6-person IT team, owning technical decisions and full-stack delivery across 6 international branches
- Built a Python tool (pandas, matplotlib) that auto-generates per vendor and branch sales KPI reports as PNG exports, cutting report generation from 2 hours to under 2 seconds for the management team
- Built a multi-agent automation system (LangGraph, MCP) for company use, handling automated responses, DB management, file analysis, report generation, with sequential chaining between agents when workflow need multiple steps
- Architected REST APIs integrating 10+ third-party services across distributed environments
- Managed IT operations across all branches, user provisioning, permissions, and GSuite/Azure administration for internal teams

Full-Stack Developer & Instructor - *Codii E-Programming School | Netanya* *Sep 2022 – Aug 2024*

- Taught Python, Java, and C/C++ to 100+ students, emphasizing software design, system architecture, and problem-solving skills
- Built the Codii CRM - a full-stack management platform for the school, delivered in 4 months alongside teaching and studies:
  - Stack: Node.js, React, MySQL, Docker 3 role types: Admin, Instructor, Student
  - Course calendar with attendance tracking, Zoom API integration for auto-generated meeting links
  - Group messaging with secure coding practices: input validation, XSS sanitization, parameterized queries, reducing injection vulnerabilities by 30%
  - Full RBAC (JWT + bcrypt) with 5 security layers; OWASP Top 10 hardened from day one
  - Replaced 3 legacy tools (Excel, WhatsApp, paper) for 100+ daily users; deployed via Docker Compose

Education

B.Sc. Software Engineering - SCE (Sami Shamoon College of Engineering), Beer-Sheva *Oct 2019 – Jul 2024*

Mobile App Dev (Xamarin, Android Studio) - Udemy 2022

JavaScript (Node.js, React) - Udemy *2021*

Military Service

Infantry Soldier - Kfir Brigade, Nachshon Battalion *Dec 2013 – Jun 2016*
Team lead (8 soldiers); first-aid certified; brigade/battalion commendations.
